

On-Ramp and Street Closures due to Beltline Construction August 1 – Mid November 2017

The Wisconsin Department of Transportation (WisDOT) Southwest Region plans to rehabilitate the Beltline bridges over Terrace Avenue in the City of Middleton starting in August. Work will include re-decking the Beltline bridges and making other minor repairs.

The following streets / ramps will be **closed** during the project:

- University Ave. / Hwy 14 on-ramp to EASTBOUND (southbound) Beltline
- Greenway Blvd. on-ramp to WESTBOUND (northbound) Beltline
- Terrace Avenue under the Beltline (sidewalk will remain open most of the time)

A **signed detour route** will be in place for US 14/University Avenue motorists intending to travel south on the Beltline (eastbound US 12/14). The detour will utilize the westbound Beltline to the Airport Road interchange.

For more information, contact David Layton, WisDOT Project Manager, (608) 246-3821, david.layton@dot.wi.gov.
